Proposal for Global Academic Partnership

To

The Chancellor/Vice-Chancellor/Chairman
XXX University

Sub : Proposal for Global Academic Partner reg :-

BioLeagues Worldwide along with our collaborating scientific associations operating under the Technoarete Research And Development Association (TRADA) welcomes universities all across the globe to join our international events organised along with other international universities. Supporting and developing research works across the globe in the field of Life Sciences is our responsibility and we are creating a collaborative environment by bringing all leading universities as organizing partners into oneness at our high class conferences & events. As one of the largest scientific event production house we endorse applications from universities and colleges from nook and corner of the globe to get united and work integratedly to create knowledge hubs beyond classrooms and university campuses. Preferring our conferences to join as "Academic partners, organisers and co-host" could be a best choice for building up better overseas connections and research collaboration with other leading organisations across the world. We believe big initiatives for noble causes would have not been possible without involvement of our professional members and a big strength of more than fifty thousand of them who are the elementary building blocks of Bioleagues. Providing basic professional education and scientific knowledge to all sections of societies and different levels of nations irrespective of category of being developed or developing is our commitment. I request you Sir/Madam to join us in this voyage to bring rapid advancement of scientific knowledge among young researchers all across the globe. Moreover, sponsoring our conferences as Co-Host / Academic Partner/ Co-Organizer brings your institution to the limelight of world academics resulting in rapid promotion and opportunity for global partnership. Involvement of your faculties and students would fetch a global exposure and platform to share their knowledge fabricated with skills. Hence we request you to join us and our global academic network to co-organise few epoch-making scientific conferences.

Looking forward to a long term Global Academic Partnership.

Warm regards

CEO, Technoarete Group

Our Associates for your University
